

TSS Facilities – AC Service Engineer Required

Due to an ever-growing client base, we are proud to advertise multiple positions within the HVAC department on TSS Facilities.

We are looking for junior and senior **Service engineers** able to work on both **AC and Refrigeration systems**.

Aircon installation engineers for small split units up to larger VRF systems.

Ac and refrigeration maintenance engineers with enough experience to be able to identify possible system faults or repairs needed.

Typical duties for successful candidates depending on the department would be scheduled PPM's, emergency call outs, reactive repairs, replacement systems and the installation of new split, multi split & VRV/F systems. On call rotation with retainer paid.

TSS Facilities hold multiple prestigious public sector and Private sector contracts. With Brighton & Hove City council, Sussex County Cricket Club and the Grand Hotel Brighton being just a few on our portfolio.

The successful candidates must have clear communication skills, work using one's own initiative and the determined ability to problem solve.

The rewards for new starters are a competitive salary paid between £28-£45k depending on skills and experience with the usual company benefits. Training investment is something TSS prides itself on so progression within the business is also on offer.

Other perks include –

- Van use
- Fuel card
- Mobile phone
- PDA/tablet
- Company pension
- Company events
